

Design & Animation 11/12 – WLSS – Mr. Hauk

Flash: Project 5 – Short Animation

Instructions:

Your final task is to create an original short animation. This project is very open-ended and should serve as the culmination of your Flash design & animation skills. Your animation should be approximately thirty (30) seconds in length but may be shorter or longer depending on your creative vision. You may do your animation based upon virtually any topic or theme. Your animation should have some type of message or theme rather than just random movements. For full marks you must try and tell a story with your animation.

Take a look at the following YouTube clip to give you some inspiration (please note: many of the animations in the clips do not seem to have any coherent story – But they are fun ☺)
