

Design & Animation 9/10 – WLSS – Mr. Hauk

Blender Project #2 – Simple Text Animation

Instructions:

Your task is to create a simple text string animation of the school logo (WLSS). The duration of your animation should be approx. 5-10 seconds and your final output size should be 640 x 480 pixels.

You can utilize Blender to produce your text animation. Experiment with the different settings for smoothing and beveling & extruding your text and be creative with the style of your animation:

- Rotation
- Scale
- Location
- Moving the camera around the text

Your animation must be saved as an MPG file and the best animation may be placed on the broadcast system/desktops at WLSS. You will be marked according to the criteria below:

Final output size is 640 x 480 pixels	/2
Final output is saved as a MPG movie	/2
Movie duration is approx 5-10 seconds	/2
Animation demonstrates creativity & originality	/2
Animation is seamless and smooth	/2
